President's Club Regional Vice President **ELIZABETH HODGSON**

Prior to her success within this business, Elizabeth was a Trainer and Educator and along with her husband Denny, controlled over 50 company, licensed and franchised stores around Australia.

What appealed most about our company was the timing of the opportunity, the structure and simplicity of the business plan, as well as the integrity of the our company's co-founders.

Their traditional business involved trading time for money whereas our business model allows Elizabeth to help other people achieve their full potential as well as achieving her own - all while creating financial freedom. Above all, Elizabeth is a mother, a leader's leader and is committed to seeing others succeed.
